AT THE THEATERS.

At Garfield Park.
One of the nicest, most orderly crowds ever seen in Garfield park, enjoyed the dance last night, saw pictures up to the highest standard, took in the figure eight, let the kids ride the merry-go-round, visited the various amusement features and went home feeling that the outing and the evening of merriment were well worth the effort. And there's something doing at Garfield all the time.

At the Iris.
"Brother Officers" is the bill at the Iris today and tonight. It is a military love story said to be of high dramatic quality, deeply interesting in plot and portrayal. Tomorrow the widely advertised "Carpet From Bagdad" will be the program.

A wedding dinner to twenty-five guests followed the marriage.

IN NORTH TOPEKA

Dike Drains Along Soldier To Be Fixed at Once.

Damage to Bridges in Northern Shawnee Co. \$8,000.

The matter of remedying the slight defects in the drainage system of the Soldier creek dikes will be taken care of by the board when the water recedes enough for the workmen to operate. T. M. Forbes, one of the members of the North Side Drainage board, said this morning. "The back of the figure eight in Garfield park probably was broken by the water receding from the dikes in the rain. Mr. Forbes said: 'Many dikes over the country have the flood gates located on the inside instead of the outside next to the water. This makes but little difference with the efficiency of the dikes.'

The law compels the installing of dikes along all dikes. The dikes along the river have drains at the end of each street and alley. This is done to afford drainage in case severe should back up.

Bridges Damaged About \$20,000.
The bridges in Shawnee county alone were damaged to the extent of nearly \$20,000, by the high water of last week. Approaches were washed out and several wooden bridges were completely destroyed.

In northern Shawnee county the damage was approximately \$8,000. Commissioner Pollock, said this morning: "We are repairing the damage as fast as possible. Other county work is being delayed in order to take care of the bridges."

Watermelons Will Be Scarce.
Watermelons around North Topeka will be a scarce article this summer, according to the advance reports on this crop. One field of fifty acres, northwest of town is completely destroyed. Other small patches are a total loss. The vines are rotting where they come through the ground. The price for the few melons that will be raised in this vicinity will undoubtedly be high.

Notes and Personal.
